

John Humphrey Seminar Series 2009-2010 Immunology & Infectious Diseases

<u>DATE & VENUE</u>	<u>SPEAKER</u>	<u>SEMINAR TITLE</u>
17 th September 2009 1pm-2pm LT 2 Wolfson Education Centre	<i>Dr Peter Loudon</i> <i>Pfizer</i>	<i>DNA Vaccines for influenza using Particle Mediated Epidermal Delivery</i>
24 th September 2009 1pm-2pm LT 1 Wolfson Education Centre	<i>Joanna Porter</i> <i>UCL</i>	<i>Leukocyte transepithelial egression from the lung: The best way out?</i>
1 st October 2009 <u>12.30pm-1.30pm</u> LT 1 Wolfson Education Centre	<i>Professor Chris Rudd</i> <i>Department of Pathology</i> <i>University of Cambridge</i>	<i>Regulation of T-cell adhesion by adaptors</i>
8 th October 2009 1.00pm-2.00pm LT 2, Wolfson Education Centre	<i>Dr Gregory Bancroft</i> <i>London School of Hygiene and Tropical Medicine</i>	<i>Killer in the rice paddy- immune responses to <i>Burkholderia pseudomallei</i></i>
15 October 2009 1.00pm-2.00pm LT 3 Wolfson Education Centre	<i>Helen McShane</i> <i>The Jenner Institute</i> <i>Oxford University</i>	<i>Developing a new TB vaccine - results from clinical trials</i>
5 November 2009 <u>12.30pm -1.30pm</u> LT 1 Wolfson Education Centre	<i>Alex Betz</i> <i>MRC Laboratory of Molecular Biology</i> <i>University of Cambridge</i>	<i>TBA</i>
12 November 2009 <u>12.30pm -1.30pm</u> T 1 Wolfson Education Centre	<i>Edd James</i> <i>Somers Cancer Research</i> <i>Southampton General Hospital</i>	<i>TBA</i>
19 November 2009 1.00pm-2.00pm LT 2 Wolfson Education Centre	<i>Professor Ashley Moffett</i> <i>Department of Pathology</i> <i>University of Cambridge</i>	<i>The maternal immune response to the placenta in humans</i>
26 November 2009 <u>12.15pm - 1.15pm</u> LT 2 Wolfson Education Centre	<i>Marion Brown</i> <i>Sir William Dunn School of Pathology</i> <i>University of Oxford</i>	<i>CD2 and CD244: relatives and rivals</i>
3 December 2009 1.00pm-2.00pm LT 2 Wolfson Education Centre	<i>Hugh Brady</i> <i>Immunology & Infection</i> <i>Imperial College</i>	<i>E2A-HLF and E4BP4 – from leukaemia to the origin of NK cells</i>

John Humphrey Seminar Series 2009-2010 Immunology & Infectious Diseases

<u>DATE & VENUE</u>	<u>SPEAKER</u>	<u>SEMINAR TITLE</u>
14 January 2010 1.00pm-2.00pm LT 2 Wolfson Education Centre	Professor Michael Ehrenstein Professor of Rheumatology University College London	<i>Targeting regulatory T cells in rheumatoid arthritis</i>
28 January 2010 1.00pm-2.00pm LT 2 Wolfson Education Centre	George Kassiotis National Institute for Medical Research	<i>Pathogenesis of retroviral infection: lessons from the mouse</i>
4 February 2010 1.00pm-2.00pm LT 2 Wolfson Education Centre	Nancy Hogg Cancer Research UK	<i>The function of integrins on immune cells: in sickness and in health</i>
11 February 2010 1.00pm-2.00pm LT 2 Wolfson Education Centre	Tomáš Hanke Human Immunology The Weatherall Institute of Molecular Medicine	<i>Focusing on the Achilles heel of HIV-1</i>
18 February 2010 1.00pm-2.00pm LT 2 Wolfson Education Centre	Colin Watts College of Life Sciences University of Dundee	<i>Lysosomal proteases and their cystatin regulators in the immune response</i>
4 March 2010 1.00pm-2.00pm LT 2 Wolfson Education Centre	Adrian Hill Director The Jenner Institute	<i>T Cell Inducing Vaccines: malaria, flu and more</i>
11 March 2010 12.30 - 1.30pm LT 1 Wolfson Education Centre	Adrian Hayday Peter Gorer Department of Immunobiology King's College London	<i>The Molecular Basis of Lymphoid Stress Surveillance of Dysregulated Tissues</i>
18 March 2010 1.00pm-2.00pm LT 2 Wolfson Education Centre	Manolis Pasparakis Institute for Genetics University of Cologne	<i>IKK/NF-kappaB signalling in inflammation and cancer</i>
15 April 2010 LT 2 WEC 1.00pm-2.00pm	Claudia Kemper Department of Nephrology and Transplantation Kings College London	<i>Complement: Tipping the balance between successful host defence and autoimmunity</i>
22 April 2010 1.00pm-2.00pm LT 2 Wolfson Education Centre	Martin Turner Biotechnology and Biological Sciences Research Council (BBSRC)	<i>Regulation of B cell development and function by RNA binding proteins</i>
29 April 2010 1.00pm-2.00pm LT 2 Wolfson Education Centre	Professor Werner Muller Faculty of Life Sciences Manchester University	<i>Dissecting the cellular cytokine network</i>

John Humphrey Seminar Series 2009-2010
Immunology & Infectious Diseases

DATE & VENUE

SPEAKER

SEMINAR TITLE

6 May 2010
1.00pm-2.00pm
LT 2 Wolfson Education Centre

Marika Kullberg
Centre of Immunology and Infection
University of York

*CD4+ T cell responses in
heliobacter-induced intestinal
inflammation*

13 May 2010
1.00pm-2.00pm
LT 2 Wolfson Education Centre

Gerry Graham
Glasgow Biomedical Research Centre,
University of Glasgow

*The roles for the D6 chemokine
scavenger in innate and adaptive
immunity*

27 May 2010
1.00pm-2.00pm
LT 2 Wolfson Education Centre

Peter Krammer
Head of Tumorimmunology Program
German Cancer Research Center

Life and Death of a T cell

10 June 2010
1.00pm-2.00pm
LT 2 Wolfson Education Centre

Moira Whyte
Academic Unit of Respiratory
Medicine, The Medical School,
Sheffield University

TBC

24 June 2010
1.00pm-2.00pm
LT 2 Wolfson Education Centre

Antal Rot
Birmingham University

TBC
